ANHUI KANGNING
INDUSTRIAL (GROUP) CO.,LTD.

安徽省康宁实业(集团)有限公司

» Brief Introduction

Anhui Kangning Industrial (Group) Co., Ltd.
Was founded in 2000 and
mainly engaged in researching
developing and producing
medical products. Its major
products include:

Surgical sutures(needle),
Vacuum blood collection tube,
Disposable syringes,
Hypodermic needles,
Infusion sets,
Blood transfusion sets,
Scalp vein sets,
Blood lancets, etc.

All of the products are tested
strictly to assure safety,
accuracy and reliability. It has
hereby obtained the
Certifications of ISO 13485
and "CE" audited by "TUV"
Germany.

With the high quality products
and good service, our products
are far sold to Europe, America,
Africa, Middle East, East and South
of Asia and so on, and enjoyed
good reputation and won the
deep praise from our customers.

Now it has developed to be
one of leading manufacturers in
this field with the abundant
technical troop and excellent
equipments.

With the standard, strict and
high efficiency management
policy, the target of KANGNING
is to make every customer believe
KANGNING forever.

» Suture Materials

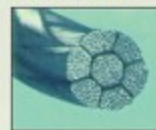

SYNTHETIC ABSORBABLE SUTURES

POLYGLYCOLIC ACID

Composition: Polyglycolic acid
Coating: Coated with magnesium stearate
Thread Colour: Violet
Structure: Braided
Origin: Synthetic
Sizes available: USP 10/0 (0.2 metric)
to USP 2 (5 metric)
Sterilization: Ethylene Oxide

POLYGLACTINE

Composition: Polyglactine
Coating: Coated with magnesium stearate
Thread colour: Violet
Structure: Braided
Origin: Synthetic
Sizes available: USP 9/0 (0.3 metric)
to USP 2 (5 metric)
Sterilization: Ethylene Oxide

POLYGLACTINE RAPID

Composition: Polyglactine
Coating: Coated with magnesium stearate
Thread Colour: Violet-Undyed
Structure: Braided
Origin: Synthetic
Sizes available: USP 8/0 (0.4 metric)
to USP 2 (5 metric)
Sterilization: Ethylene Oxide

POLYDIOXANONE

Composition: Polydioxanone
Coating: Coated with polydioxanone Polymer
Thread colour: Violet-Undyed
Structure: Monofilament
Origin: Synthetic
Sizes available: USP 9/0 (0.3 metric)
to USP 2 (5 metric)
Sterilization: Ethylene Oxide

NATURAL ABSORBABLE SUTURES

CHROMIC CATGUT

Composition: Natural purified collagen
Thread Colour: Brown & Green
Structure: Monofilament
Origin: Bovine serosa
Sizes available: USP 6/0 (1 metric)
to USP 3 (7 metric)
Sterilization: Gamma Radiation

PLAIN CATGUT

Composition: Plain Catgut
Thread colour: Straw
Structure: Monofilament
Origin: Bovine Serosa
Sizes available: USP 6/0 (1 metric)
to USP 3 (7 metric)
Sterilization: Gamma Radiation

Artikulli 5

NON- ABSORBABLE SUTURES

SILK

Composition: Natural Silk
Coating: Wax and Silicone
Thread Colour: Black
Structure: Braided
Origin: Silkworm larval cocoons
Sizes available: USP 11/0 (0.2 metric)
to USP 2 (5 metric)
Sterilization: Gamma Radiation

NYLON

Composition: Polyamide
Coating: Uncoated
Thread colour: Blue dyed/Black dyed
Structure: Monofilament
Origin: Synthetic
Sizes available: USP 11/0 (0.1 metric)
to USP 2 (5 metric)
Sterilization: Gamma Radiation

POLYESTER

Composition: Polyester
Coating: Uncoated
Thread Colour: Dyed Blue
Structure: Braided
Origin: Synthetic
Sizes available: USP 6/0 (0.7 metric)
to USP 2 (5 metric)
Sterilization: Gamma Radiation

POLYPROPYLENE

Composition: Polypropylene
Coating: Uncoated
Thread colour: Blue
Structure: Monofilament
Origin: Synthetic
Sizes available: USP 10/0 (0.2 metric)
to USP 2 (5 metric)
Sterilization: Gamma Radiation

Artikulli 2,3,4

Article	Specification	Packing
2 Parts Type(Slip)	2ml,3ml,5ml,10ml,20ml	Blister or Poly Bag
3 Parts Type (Luer Lock or Slip)	1ml,2ml,3ml,5ml,10ml,20ml,30ml,50ml,60ml	
Insulin Syringes	1ml	

« Hypodermic Needle
Size:16G-28G
